

# Pressure Gauges

## Applications

- These liquid filled gauges are intended for conditions when pulsation or vibration exists.
- To check on line pressure from pump down to field valves or anywhere.
- To check pressure differential across devices such as filters and venturi injectors.

## Features & Benefits

- Available in 2 1/2" and 4" diameter sizes to meet water various application needs.
- Multiple scale ranges within 0 to 600 psi.
- Dual units (psi/bar) scale on all gauges.
- Vent plug in casing for equilibrium.
