M-0157	50	130	10		
M-0254	50	150	10		

Sport Series Irrigator Options

- A-0083 Draw bar wheel
- A-0149 Mechanical lifting leg
- A-0299 Brake on gear box
- A-0081 Manometer
- A-0148 Speed compensator
- A-0150 Shut off valve deduction
- A-0082 Engine kit to move the irrigator
- A-0188 Under foliage kit with 4 directional nozzles applicable to the trolley
- A-0121 Nozzle for under foliage irrigation
- A-0122 Sprinkler for under foliage irrigation
- A-0292 Honda booster pump

Call for Pricing

Standard Equipment (for all part numbers)

- Hot galvanized frame & drum
- Turntable frame
- Driven by partial flow water turbine flanged in gearbox
- 3 speeds gear box with brake and pto shaft
- Accident protection
- Electronic speed indicator
- End rewinding stop by means of shut off valve
- Manometer
- 2 wheel sprinkler cart with adjustable track
- Sprinkler with nozzles' series
- 4 m flexible hose with coupling
- Automatic stop at the rewinding end
- Hand wheel for pto shaft
- Automatic cart lifting
- Speed adjustment on by pass
- Rear anchoring legs with handle
- Hose guide system with no end screw
- Chassis with adjustable track

Call for Pricing

Standard Equipment (for all part numbers)

- Hot galvanized frame & drum
- Turntable frame
- Driven by partialized water turbine flanged on gearbox
- 3 speed gearbox with brake and pto shaft
- Accident protection
- Electronic speed indicator
- Manometer
- Sprinkler cart with adjustable track and height
- 4 m flexible hose with couplings
- Handwheel for pto
- Speed compensator on secon bypass
- Automatic stop at the rewinding end
- Automatic cart lifting
- Speed adjustment on main bypass
- Hose guide system with no end screw
- Rear anchoring legs with handle
- Adjustable height of the drawhook
- Chassis with adjustable height and two lateral front legs

Silver Series Irrigator Options

A-0018	Galvanized flanged extension - length 50 cm.
A-0014	Galvanized discs of 20 kg. as ballast for sprinkler trolley
A-0030	Vacuum membran valve diam. 2" to stop irrigation
A-0030	Vacuum membran valve diam. 3" to stop irrigation
A-0031	Slow closing valve to stop irrigation
A-0077	Slow closing valve to stop irrigation
A-0036	Speed indicator with roll on PE hose
A-0047	Irrigamatic 100 to set and control the rewind speed
A-0102	Irrigamatic 200S - Call for more details
A-0052	Irrigamatic 300 - Call for more details
A-0300	Irrigamatic P 150 - Call for more details
A-0301	Irrigamatic P 350 - Call for more details

Compakta Series Irrigator Options

List Price

- A-0001 Diamant chassis in substitution of Compakta chassis
- A-0018 Galvanized flanged extension, length 50 cm
- A-0019 Galvanized flanged extension, length 100 cm
- A-0017 Cement Ballast
- A-0015 Directional discs of 30 kg. for trolley wheels on cod. 19-21-23-26-28-31-34

- A-0030 Vacuum membrane valve diam. 2" to stop irrigation
- A-0031 Vacuum membrane valve diam. 3" to stop irrigation
- A-0037 100-110 for cod. 19-21-23S
- A-0047 Speed indicator with roll on pe hose
- A-0048 Irrigamatic 100 to set and control the rewinding speed
- A-0102 Irrigamatic 200S with the following functions: setting and control of the rewinding speed, initial pause, final pause, control of the end irrigation valve, continue measurement of the unrolled PE hose

- A-0052 Irrigamatic 300 with the following funtions: setting and control of the rewinding speed with the possibility to set 4 different speeds, pause before the beginning of the irrigation, initial pause, final pause, continue measurement of the unrolled PE hose, control of the end irrigation valve.

- A-0300 Irrigamatic P 150 to set the rewinding speed, to check the outstanding PE hose and the irrigation time
- A-0301 Irrigamatic P 350 with the following funtions: setting and control of the rewinding speed, initial pause, final pause, control the end of the irrigation valve, unrolled PE hose, irrigation start and stop time
- A-302 Irrigamatic P 450 with the following functions: setting and control of the rewinding speed with the possibility to set 4 different speeds, pause before the beginning of the irrigation, initial pause, final pause, continue measurement of the unrolled PE hose, control of the end irrigation valve and 4 differant speed in one pull

- A-0007 Hydraulic front jack with flexible hoses to the tractor instead of mechanical one.
- A-0174 Hydraulic establishment leg kit with fast couplig to the tractor for Silver, Diamant and Compakta with chassis of Diamant series
